Special Issue: Direct Observation and Measurement of Hydrothermal Reactions

Preface 1

Hydrothermal diamond anvil cell for XAFS studies of first-row transition elements in aqueous solution up to supercritical conditions
W.A. Bassett, A.J. Anderson, R.A. Mayanovic and I.-M. Chou 3

Potentiometric determination of cadmium–acetate complexation in aqueous solutions to 250°C
P. Bénézeth and D.A. Palmer 11

Reaction pathways in the Fe–S system below 100°C
L.G. Benning, R.T. Wilkin and H.L. Barnes 25

In situ time-resolved X-ray diffraction of iron sulfides during hydrothermal pyrite growth
C.L. Cahill, L.G. Benning, H.L. Barnes and J.B. Parise 53

Complexation of Cu^{2+} in oxidized NaCl brines from 25°C to 175°C: results from in situ EXAFS spectroscopy
M.D. Collings, D.M. Sherman and K.V. Ragnarsdottir 65

Potentiometric study of Gd– and Yb–acetate complexing in the temperature range 25–80°C
S. Deberdt, S. Castet, J.-L. Dandurand and J.-C. Harrichoury 75

New experimental developments for in situ XAFS studies of chemical reactions under hydrothermal conditions
M.M. Hoffmann, J.G. Darab, S.M. Heald, C.R. Yonker and J.L. Fulton 89

Reference systems for assessing viability and accuracy of pH sensors in high temperature subcritical and supercritical aqueous solutions
S.N. Lvov, X.Y. Zhou, S.M. Ulyanov and A.V. Bandura 105

Indium(III) chloride complexing and solvation in hydrothermal solutions to 350°C: an EXAFS study
T.M. Seward, C.M.B. Henderson and J.M. Charnock 117

Hydrothermal formation of the calcium silicate hydrates, tobermorite ($Ca_5Si_6O_{16}(OH)_2 \cdot 4H_2O$) and xonotlite ($Ca_6Si_6O_{17}(OH)_2$): an in situ synchrotron study
S. Shaw, S.M. Clark and C.M.B. Henderson 129

Dehydration/recrystallization mechanisms, energetics, and kinetics of hydrated calcium silicate minerals: an in situ TGA/DSC and synchrotron radiation SAXS/WAXS study
S. Shaw, C.M.B. Henderson and B.U. Komanschek 141

Antimony transport in hydrothermal solutions: an EXAFS study of antimony(V) complexation in alkaline sulfide and sulfide–chloride brines at temperatures from 25°C to 300°C at P_{sat}
D.M. Sherman, K.V. Ragnarsdottir and E.H. Oelkers 161

Speciation of tin (Sn^{2+} and Sn^{4+}) in aqueous Cl solutions from 25°C to 350°C: an in situ EXAFS study
D.M. Sherman, K.V. Ragnarsdottir, E.H. Oelkers and C.R. Collins 169

Spectrophotometric measurements of metal complex formation at high temperatures: the stability of Mn(II) chloride species
O.M. Suleimenov and T.M. Seward 177

Magnetite surface charge studies to 290°C from in situ pH titrations
D.J. Wesolowski, M.L. Machesky, D.A. Palmer and L.M. Anovitz 193

The aqueous geochemistry of the rare earth elements IX. A potentiometric study of Nd^{3+} complexation with acetate in 0.1 molal NaCl solution from 25°C to 225°C
S.A. Wood, D.J. Wesolowski and D.A. Palmer 231

Vol. 167, Nos. 3–4

Research Papers

High-precision analysis of Pb isotope ratios by multi-collector ICP-MS
W.M. White, F. Albarède and P. Télouk 257

Steady-state modelling of biogeochemical processes in columns with aquifer material: 2. Dynamics of iron–sulfur interactions
U. von Gunten and G. Furrer 271

The effects of K-metasomatism on the mineralogy and geochemistry of silicic ignimbrites near Socorro, New Mexico
D.J. Ennis, N.W. Dunbar, A.R. Campbell and C.E. Chapin 285

Dissolution methods for strontium isotope stratigraphy: whole rock analysis
T.R. Bailey, J.M. McArthur, H. Prince and M.F. Thirlwall 313

Geochemical characteristics and implications of hydrocarbons in reservoir rocks of Junggar Basin, China
C. Pan and J. Yang 321

The temperature dependence of bytownite feldspar dissolution in neutral aqueous solutions of inorganic and organic ligands at low temperature (5–35°C)
S.A. Welch and W.J. Ullman 337

Petrogenesis of two groups of pyroxenite from Tungchihsu, Penghu Islands, Taiwan Strait: implications for mantle metasomatism beneath SE China
K.-s. Ho, J.-c. Chen, A.D. Smith and W.-s. Juang 355

Bromine geochemistry of salar de Uyuni and deeper salt crusts, Central Altiplano, Bolivia
F. Risacher and B. Fr[illegible] 373

Isotope Geoscience Section

Rediscovery of classical methods and their application to the measurement of stable bromine isotopes in natural samples
H.G.M. Eggenkamp and M.L. Coleman 339

Errata

Erratum to: Precise elemental and isotope ratio determination by simultaneous solution nebulization and laser ablation–ICP-MS: application to U–Pb geochronology [Chem Geol; 164(2–3): 283–304]
I. Horn, R.L. Rudnick and W.F. McDonough 403

Precise elemental and isotope ratio determination by simultaneous solution nebulization and laser ablation-ICP-MS: application to U–Pb geochronology
I. Horn, R.L. Rudnick and W.F. McDonough 405
